**TechVets**, a programme of the Forces Employment Charity offers extensive training across various tech domains covered today and more. Most of our training is self-paced and available anytime, anywhere. Not a member yet? Sign up today at [TechVets](https://TechVets).

**All our training and courses are FREE for service leavers, veterans, and their families.**

# START YOUR JOURNEY TODAY!

## Pathways into Cyber Security

**Cyber Million:** In partnership with Immersive Labs, TechVets provides gamified, hands-on learning. This training serves as an ideal introduction to assess your technical aptitude.

**SkillSoft:** Access a range of information security and cyber security training, including Business Continuity Planning, CompTIA CySA+, CompTIA CASP+, Systems Security Certified Practitioner (SSCP), and Certified Information Systems Security Professional (CISSP).

**Cybrary:** Enjoy 6 months of free, premium access to Cybrary content, including MITRE ATT&CK, CVEs, and Cybrary challenges.

**Fortinet:** Through the Fortinet Veterans' Program, access a variety of self-paced, instructor-led, and virtual instructor-led training, along with practical exercises to master complex network security concepts.

**Google:** Access the Google Cybersecurity Professional career certificate, ideal for those seeking entry-level roles in cyber security.

**Safestack:** For secure development training, our partners at SafeStack.io provide high-quality content created by industry experts, regularly updated to build essential security skills.

**TryHackMe:** Gain access to premium TryHackMe training, offering hands-on learning from the start of your cyber security journey.

## Pathways into Data Specialisms

**Google:** Through Coursera, TechVets offers Data Analytics training via the Google Career Cert Scholarship Program, including courses like Google Data Analytics, Advanced Analytics, IT Automation with Python, and Business Intelligence.

**Skillsoft:** Access the Data Science for Managers course and training in leading data visualization tools like Tableau and Microsoft PowerBI.

**Splunk:** As part of the SplunkWork+ initiative, our members can access Splunk training and exam vouchers, including all 22 single-subject courses in the Knowledge Manager and Search Expert learning paths.

## Pathways into IT Infrastructure

**Google:** Through Coursera, TechVets offers IT Support training via the Google Career Cert Scholarship Program.

**Skillsoft:** Prepare for Network+ and Security+ certifications with courses on designing, configuring, managing, and troubleshooting network infrastructure, as well as other valuable courses like CompTIA Cloud+, CompTIA Linux+, and CompTIA Server+.

**Cisco:** Access Networking Essentials and training for CCNA & CCNP through our Cisco Networking Academy. Members scoring 70% or higher in these courses can purchase exam vouchers at a 50% discount.

**Netcompany:** Gain access to MS-900, SC-900, and AZ-900 training and certification opportunities through our partnership with Netcompany.

**Skillsoft:** Access courses in Certified Cloud Security Professional (CCSP) and various AWS training modules, including AWS Certified Solutions Architect - Associate, AWS Cloud Practitioner, and AWS Certified SysOps Administrator.

## Pathways into Software Development & Programming

**Google:** Through Coursera, we offer UX Design training via the Google Career Cert Scholarship Program. This includes over 200 hours of instruction and practical activities using tools like Figma and Adobe XD, culminating in a portfolio to showcase your skills.

**Safestack:** Our partners at SafeStack.io provide secure development training with content created by industry experts, focusing on building essential security skills.

**Cisco:** Through the Cisco Networking Academy, learn programming with courses in C++, JavaScript, and Python.

**Pega:** Access training and certifications in Pega's low-code technology through the Pega Academy.
